

YASH UKE

Java Full Stack Developer | Spring Boot | Microservices | Kafka | Angular | AWS

+91 7276046862 | yashuke.dev@gmail.com | Karnataka, Bengaluru

PROFESSIONAL SUMMARY

Java Full Stack Developer with **3+ years** of experience designing and developing **Spring Boot microservices and Angular applications**. Built and maintained **10+ microservices** serving **30,000+ daily active users** across **healthcare and e-commerce domains**. Improved **API response times by 35-45%** using **Redis caching and MySQL** query optimization. Experienced in deploying cloud native applications on AWS using Docker, Kubernetes, and Jenkins CI/CD.

CORE SKILLS

Languages: Java (8/11/17), SQL, JavaScript, TypeScript, HTML5, CSS3, Bash.

Backend & Frameworks: Spring Boot, Spring MVC, Spring Security, Spring Data JPA / Hibernate, Microservices, RESTful APIs, SOA-based Services.

Frontend: Angular, HTML5, CSS3, TypeScript, JavaScript.

Security & Authentication: JWT, OAuth 2.0, Spring Security Filter Chain, Session Management, CORS, CSRF Protection

Database & Messaging: MySQL, Redis, Apache Kafka, JDBC.

Cloud (AWS): EC2, S3, RDS, IAM, CloudWatch, VPC, API Gateway, SQS, SNS.

DevOps & Tools: Docker, Kubernetes, Jenkins, Git, GitHub, Maven, Postman.

Testing: JUnit 5, Mockito, TDD, JaCoCo, Integration Testing.

Concepts: OOP, Collections Framework, Generics, Multithreading, Concurrency, Design Patterns, SOLID Principles, Microservices Architecture, Event-Driven Architecture, Distributed Systems, System Design, REST API Design.

Practices: Agile/Scrum, Jira, Code Reviews, Database Optimization, Asynchronous Processing.

EXPERIENCE

Java Full Stack Developer - Reckonsys Tech Labs | Bengaluru | Healthcare & Marketplace Products

- Designed, developed, and deployed **10+ Cloud-native Spring Boot microservices on AWS**, serving **30,000+ daily active** users.
- Implemented **Apache Kafka** and **Redis caching**, improving scalability and reducing API response time by **35-40%**.
- Developed secure **RESTful APIs** and **Angular** modules using **Spring Security, JWT, and RBAC**.
- Deployed cloud-native applications using **Docker, Kubernetes, Jenkins CI/CD, and AWS (EC2, RDS, S3, IAM & VPC)** while optimizing production performance.

PROJECTS

Senior Care Marketplace (E-Commerce Domain)

- Developed Spring Boot microservices for User, Community, Booking, Payment, and Notification modules, enabling seniors and families to search, compare, and book assisted living services.
- Built RESTful APIs and Angular modules for community listings, appointment scheduling, and payment processing using Spring Security and JWT authentication.
- Implemented Kafka for booking events and notifications, while improving backend performance using Redis caching and MySQL query optimization.

Pharmacy Management System (Healthcare Domain)

- Designed and developed Spring Boot microservices for Medicine Catalog, Inventory, Prescription, Order, and Payment management.
- Built RESTful APIs and Angular modules for medicine browsing prescription upload, shopping cart, checkout, and order tracking with secure authentication.
- Integrated Kafka for asynchronous order processing and inventory updates, and deployed applications using Docker, Kubernetes, Jenkins CI/CD, and AWS.

EDUCATION

Bachelor of Engineering (B.E.)

Electronics & Telecommunication Engineering | Sipna College of Engineering | CGPA: 7.29
